Indore, Madhya Pradesh

SUMMARY

Results-driven **Software Engineer** with a strong foundation in **Python** development, automation, and backend architecture. Proficient in building scalable **RESTful APIs** using **Django** and managing relational databases like **PostgreSQL**. Databricks Certified in **Generative AI**, combining core software engineering principles with data science and emerging AI technologies to solve complex technical challenges.

TECHNICAL SKILLS

Languages & Core: Python, JavaScript, OOP, Data Structures & Algorithms
Backend & Frameworks: Django, Django REST Framework (DRF), RESTful APIs
Databases & Cloud: PostgreSQL, MySQL, MongoDB, AWS S3, Databricks
Tools & Automation: Git, Selenium, Scikit-Learn, Pandas, Postman, Version Control

EXPERIENCE

Application Development Analyst

Feb 2024 – Present

Accenture Solutions Pvt. Ltd.

Indore, MP

- Engineered a high-performance **Python automation** suite using **Selenium** and **OpenPyXL** to process and enrich large-scale financial datasets (BIC/SWIFT codes).
- Developed a robust data pipeline that normalized BIC8/BIC11 formats and performed automated web-scraping via **XPath**, significantly reducing manual verification overhead.
- Implemented stability features including **exception handling**, **rate limiting**, and a **caching layer** to optimize network requests and ensure reliable execution.
- Collaborated in an Agile environment using **Git** for version control and participating in code reviews to maintain high software quality standards.

Engineering Intern

Jan 2023 – May 2023

Concept Information Systems Pvt. Ltd.

Indore, MP

- Engineered a machine learning predictive pipeline using **Python** and **Scikit-Learn**, deploying a Linear Regression model to forecast sales metrics and drive business intelligence.
- Performed comprehensive Exploratory Data Analysis (EDA) and robust data preprocessing utilizing **Pandas** and **NumPy** to clean datasets and optimize model accuracy.

PROJECTS

LinkHub v2.0 - Multi-tenant Content Management API | [GitHub](#)

- Architected a highly secure, multi-tenant **RESTful API** utilizing **Python** and the **Django REST Framework (DRF)**, processing high-volume content aggregation and robust user authentication.
- Designed scalable relational database schemas in **PostgreSQL** and integrated **AWS S3** for media storage, ensuring 99.9% availability and optimized data retrieval speeds.
- Applied strict **OOP principles** to create a modular, maintainable backend architecture capable of handling concurrent requests efficiently.

FitTrackPro - Health & Fitness Analytics API | [GitHub](#)

- Developed a comprehensive health analytics backend leveraging **Django**, implementing secure user authentication protocols, detailed workout logging, and dynamic progress tracking.
- Built complex time-series databases in **PostgreSQL**, optimizing SQL queries to rapidly render analytics and reporting for end-users.
- Integrated seamless data validation and error handling mechanisms to ensure data integrity across all **API endpoints**.

EDUCATION & CERTIFICATIONS

Shri Vaishnav Vidyapeeth Vishwavidyalaya

Aug 2019 – May 2023

Bachelor of Technology in Computer Science, **8.0/10 CGPA**

Indore, MP

Certifications: Databricks Certified Generative AI Associate, Oracle Cloud Data Science Professional
